SWIMMING POOL MAINTENANCE IN LUCCA, GARFAGNANA AND VERSILIA - ITALY

Pool Service Center

SUMMERTIME OPENING

We will remove, clean and bend your winter covering; our service includes also water treatments with chemicals in order to make it clear again.

CHEMICAL DOSING AND PRESERVATION

Our technicians will check the water condition and dose chemical products, if necessary.
We will care about other parts as well: filters, pumps, skimmers and so on...

POOL AND SURROUNDING AREA CLEANING

It's provided both to clean the water surface and to vacuum the floor. Further services involve cleaning inner skimmers, poolsides and PVC clothes.

WINTERTIME CLOSING

Our team will treat the water to preserve it from winter damages.

EXTRAORDINARY MAINTENANCE

On request we will accomplish extra works upon quotation.
